Ayer's Sarsaparilla is a tonic and alterative, free from alcohol. What is a "tonic"? A medicine that imparts strength or tone; a medicine that builds up, gives vigor and power. What is an "alterative"? A medicine that alters or changes unhealthy action to healthy action. Ayer's Sarsaparilla does all this without stimulation. Ask your doctor if a family medicine, like Ayer's Sarsaparilla, is not vastly better without alcohol than

EXPERT SAYS OHIA IS

For Flooring Purposes Surpasses Best Quarter Oak - May Revolutionize Work.

(Special to The Advertiser.)

HILO, August 17 .- The Herald to morrow morning will say that there is likely to be a complete revolution of the work at the Pahoa lumber mill, as the result of the work of the new floor-ing machine which was recently install-ed by A. S. Baker, of the S. A. Woods Machine Company of Boston. The work of the new machine has shown that ohia, which has been used up to this time mainly for railroad ties, is equal to the most precious woods of the mainland for flooring purposes. The beauty of the wood, when finished with the new machine and otter her beauty.

I have never, in twenty years of experience in hardwood machinery, dur-ing which I have handled almost every kind of hard wood, seen anything finer than the ohia, which is at present actually going to waste in the shape of railroad ties. It classes with the most precious woods, for quality, for beauty and in every other manner. while getting the new machine, which was described in the Herald a couple of weeks ago, into shape for its best work. I made a number of specimens of parquet flooring. I had expected good results, but was astonished with what I found. I believe that without any question the price of \$1.00 per foot could be easily obtained for this flooring. When it is considered that flooring. When it is considered that the ties that are sent out only bring in the vicinity of \$1.00 each, landed on the Coast, and that each of them contains many feet of flooring, the gre margin for profit may be understood

Ohia is a magnificent wood and I am very glad to have made the trip flown here, just for the sake of becoming acquainted with it. The machine which I have just installed is working to perfection and I think that Manager Johnson is greatly pleased with what it can do. I return to the Coast, but may come back again, before very long, to install other machines on this island.

"Quartered oak flooring, which is about the best on the market in the East, sells for \$120.00 per thousand fort, and I believe that ohis is the soperior wood of the two in every way, and particularly in the line of beauty. There are thirty feet of inch flooring in such tie and since when sold as ties it brings but \$32.00 per thousand on the Coast, it can be seen that there should be money in flooring. I expect to hear great things from the wood later on "

The flooring will be used in the new scinforced concrete building that is just being completed for H. Hackfeld & Co. in 1910.

A PRICELESS POSSESSION.

If the supply of Chamberlain's Cole, thelera and Diarrhees Hemedy should suddenly become limited, many homes would consider a bottle of it to be a principes possession. It is said in almost avery civilized country, and never fails to give astisfaction. For sale by all desires. Hemon, Smith & Co., Ltd., agents for Hawaii.

GENERAL NEWS FROM THE PACIFIC COAST

SAN FRANCISCO, August 12.—Capt. E. Anderson, master of the steamer Nevadan, was arrested yesterday by United States Marshal Elliott on a Charge of allowing a Chinese alion mom-ber of his erew to land in the United States on June 13. Anderson was re-leased on his own recognizance by United States Commissioner Brown, pending the examination.

Mariposa Captain Fined.

Three passengers who arrived on the steamer Marlposa last week from Tahiti complained that some of the members of the crew had slept in the steerage and had used the steerage lavatory, which is contrary to navigation regula-tion. The complaint was laid be ore Customs Collector Stratton, who ordered

yesterday afternoon from Salina Cruz, ing so intimately connected and work-via San Diego, with a cargo of New York and European freight, complained of the action of the cruisers South Dakota and Washington, engaged in man neuvers off the lower coast in directing

apon the polariscope test.

Kellogg Quarantined.

The architectural atrocity being prected on J. Alfred Magoon's lot at the corner of King and Kapiolani streets, opposite Thomas Square, appearing hideous from its beautiful surroundings, is still going up, but very slowly as the builder has only one Chinaman working on it now. The nearer it appronches completion, the uglier it becomes and the more indignust grow the helpless citizens who are compelled to look upon it and realize the blot on the landscape may be a

fixture.

Mr. Magoon's lessee has not yet stated whether or not be intends to run a wash house in the lower part of the architectural scarcerow. The upper part, judging from its appearance, will soon be used as a Chiusse or Porto.

Bleen teneragest. The board of supervisors have been able to devise no way to stop the erection of this building or may other line if this may be started to any other restanting by the started to any other restanting to the started to

Possible That Increased Work Sends Account of Great Flood in May Necessitate Separate Head for Land Bureau.

eral thousands of dollars.

Hot since the passage by congress of the amendments to the organic act, chief of which were the amendments to the land laws of the Territory, the work of the land office has greatly increased. Everybody seems to want public land, and both Marston Campbell and Joshua Tucker are kept so busy answering inquiries from eager applicants, arrang quiries from eager applicants, arranging for surveys, meeting with the advisory land board, preparing maps, plans and specifications and trying to satisfy the anxious throng that crowds the land office day by day, that it is becoming evident that the job of land commissioner is a good deal bigger and more important now than it has ever been in the past and demands more time and attention.

The commissioner of public lands

and attention.

The commissioner of public lands ought to have the time to visit every district in the Islands and talk with the people who want lands, giving them the information and instruction they need and finding out their sentiments. But when the commissioner of public lands is also the superintendent of public works, the head of the survey office and the chairman of the department of

med and finding out their sentiments, the master of the steamer to pay a fine of \$150 before clearance papers will be granted her.

Nevadan in Stiff Gale.

Strong west winds and a heavy north was the chairman of the department of the voyage were reported by Captain Anderson of the Matson freighter Nevadan, which arrived in yesterday from Kannapali after an eight day run. The Nevadan passed the Matson liner Wilhelmian, bound from here for Honolulu and Hilo, in latitude 36:28 april, longitude 19:20:20 west. The Nevadan brought 19,788 bags of sugar and 4000 cases of pineapples.

Has Big Sugar Cargo.

The Prising steamer Needles, Captain Turner, which arrived in port that Turner, which arrived in turner turner

kota and Washington, engaged in maneuvers off the lower coast, in directing their searchlights upon the steamer. Captain Lyons said that the work of his crew and men on the bridge was bindered by the powerful lights which played upon the Missourian from the played upon the Missourian from the though it may be that he would be by no means eager to accept.

Denny in Charge Here.

Word has been received from Washington to the effect that Colonel Prank Denny, recently relieved as quarter master of the marine corps at Washmaster of the marine corps at Washlegton, is expected to arrive in this
city next week. Colonel Denny has hern
ordered to duty in charge of the quartermaster's deport in this city and of
the quartermaster's department of the
marthe corps of the Facific Coast. In
addition to this duty, he will have
charge of all construction work on the
Pacific including the district of Heno
lub. Major H. L. Rossevelt, who is
now in charge of the depot, will remain in this city an dishurring officer
and assistant to the quartermaster.

Japan That Local Japanese Might Know.

While most of the Handala Japanese legartment from the public works de are from the wowers districts of the partment will probably be made in the Japanese empire, and the fearful floods legislature next session, and it will re-ceive the approval and support of the Mikado's kingdom are in the eastern and corthern provinces, there are never theless numerous praminent Japanese in these Hawaiian Islands who are much concerned on account of the watery terror in the far East. Japanese Minister of Poreign Affairs

unt Komura yesterday cabled H. I. M's Consul General in Hawaii, Mr.

Uyeno, to the following effect:
"The flooded districts are those of Tekio, Sizuoka, Saidama, Gunba, Chiba, Tochiki, Miyagi, Nagano, Yamanashi, Kanaguwa, Ibabaki, Aichi, Fakushima, Iwate, Yamagata and Akida.

Iwate, Yamagata and Akida.

Damagas reported to date show that 800 people have been killed, drowned or danth in the rules caused by have met death in the ruins caused by the floods. The number injured amounts

the floods. The number injured amounts, so far, to 160, while 500 persons are not accounted for.

"The number of houses totally loss in the floods reaches 3700, while 2200 dwellings and other buildings have been partfally destroyed and 393,000 houses are under water, the rising flood driving the occupants out of their places of abods.

"In Tokio, and that is the color."

of shods.

"In Tokio, and that is the only sity concerning which there is any record as to the number of people being rescued, 200,000 persons have been saved from the farry of the floods.

"In all districts however, where the water is doing damage, the authorities

water is doing damage, the authorities are doing everything in their power to give relief to the homoless, and to reach the city of Tokio the army and may men have been called upon and are performing great work in the matter of assisting suffering citizens. The governor heads the rescue work and all that is possible to be done is being accomplished for the help of the unfortunates, driven from their residences by the spreading waters or caught in dangerous places by the surrounding element.

Fashing Fashing Places by the surrounding element.

tokawa, from Ibaraki; Doctor Katsu-numa of the immigrant station here, who is from the district of Fukushima, and O. Okasaki, the Hotel street tailor,

ulso from Fukushima. Mr. Mikami of the Hawali Shinpo,

WESTERN ROADS MAY HELP LOCAL TRADE

Liked Plan of Advertising at Pleasure Resort.

Several big transcontinental railroad managers visited the Hawaiian exhibit at Atlantic City recently and expressed ther admiration for the advertising scheme, according to a statement of H. P. Wood at a meeting yesterday of the promotion committee, of which he is

Mr. Wood said also that he had been encouraged to believe that in order to increase their traffic between the Pacific Coast and the eastern States some of the big ronds would contribute to the maintenance of the Hawaiian exhibit and to otherwise promote trade between the eastern States and the Islands.

Islands. Islands.

The heads of the big lines are said to be anxious to turn the tide of travel westward, which would greatly benefit Hawnli.

The committee is anxious to receive designs for a poster advertising the next floral parade. One picture has been received. The committee would the plotted to hear from local painters. It will pay \$100 for a suitable design. The committee will be reorganized next week. W. H. Hoogs and Norman Wattings have been
